

Clark Forklift Part

Clark Forklift Parts - At present, there are over 350,000 Clark forklifts performing globally, and in excess of 250,000 operating in North America alone. With five major lines across the globe, Clark is proud to be one of the most expansive corporations in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, gasoline, LPG, hand powered lift trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift, covers more than 120,000 specialized components fabricated for 20 unique brands of forklifts and automated equipment. Your local Clark Supplier is your total source for availability of all your parts requirements provided by Clark Totalift.

Clark features a extraordinary Parts Distribution team. The items warehouses are conveniently stationed in Changwon, South Korea and Louisville, Kentucky to make certain exceptional service to both their customers and their sellers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing producers. Motivated to supply the highest level of value and service to our users, Clark remains on the cutting edge when it comes to improving productivity and benefiting performance.

Globally, Clark has one of the most impressive dealer support networks. With over 550 locations worldwide, seller representation in over 80 nations and 230 locations in North America, their high level of dedication to their clients predominates the material handling industry.

By revolutionizing the operator restraint system safety feature, Clark proudly remains a leader of modernization in the industrial equipment and automated forklift industry. This exceptional commitment to safety is now a standard feature on every lift truck.

Clark's relentless mission to possess the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first lift truck manufacturer across the globe to be certified with the internationally approved quality standard ISO 9001 for each and every one of their production facilities. Also, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be ready for any environmental limitations, thus placing them in a prevailing industry position.

Clark has chosen the particularly economical and beneficial system of "Lean Manufacturing" for its assembly facilities and application of resources. This system was established to acknowledge the most effective method of production plant management and ensuring maximum efficiency. Clark has completed this transition of its Korean plant. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and manufacturing efficiencies.

By working collectively, Clark's product suppliers and engineers communicate towards improving product efficiency while minimizing costs. The contemporary value engineering program combines progressive product improvement and provides improved customer support and service within the industry.
