

Spreader Bar for Forklift

Forklift Spreader Bars - ELME has been proudly operating ever since 1974, becoming the biggest independent spreader maker in the world. They are a dedicated maker of spreaders intended for a lot of different applications like the swap bodies, trailers, and handling of containers.

Engineering is done in-house by making use of all the most up-to-date CAD systems and FEM tools. The ELME company currently employs more than 125 personnel. Their spreaders are supplied to reach stackers, straddle carriers, lift trucks, gantry, quayside and ship-to-shore cranes all-around the globe.

The product series of ELME consist of many spreaders utilized for several container and trailer handling operations. Some of their inventory consist of: Reach Stackers, Harbour Cranes, Lift Trucks, Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail Mounted and Rubber Tired Gantry Cranes in addition to a huge variety of additional parts.

ELME production and manufacturing is performed in a highly automated purpose built factory. In 2008, they created over 1150 spreaders by means of using high quality components in order to guarantee reliability and top standards while offering competitive prices. Major characteristics of ELME comprise design simplicity, market response and inventive modular spreader concept.
